Millions of people owe their lives to people whom they will never know or meet in their lifetime.(1)....., who have donated their blood freely and without any reward - voluntary blood donors. Voluntary unpaid donors are the foundation of a safe blood supply which saves millions of human beings from the death.

Nothing is comparable to the preciousness of human blood. (2).....of medical science today, there is no laboratory that manufactures blood. It is only in human beings that human blood is made and circulated. For those who require blood for saving their lives,(3)..... Therefore, voluntary donation is the only way of accumulating blood at safe storage to meet emergency requirements for saving lives. Blood is required for treatment of accidental injuries, burns... In times of accidental injuries that shed huge amounts of blood and also in various types of(4)....., we require blood for transfusion. Unavailability of blood may cost lives. Therefore, importance of blood donation is tremendous. This is the greatest gift one can give to the humans.(5)..... If someone really loves oneself and other fellow beings, the only way to express it is to donate blood voluntarily.

Blood donation is harmless and safe in the body. Rather, it is a social responsibility. The donor is donating (6).....He himself may use the same during his own need. So, today's donor may be tomorrow's recipient. Without their humane gifts of noble donors, that also from the heart, many lives might have lost for want of blood. Therefore, the most generous and biggest ever contribution to mankind is blood donation.
